<u>DOCUMENTS NEEDED</u>					
Closure Letter, and any conditional closure letter issued					<input checked="" type="checkbox"/>
Copy of most recent deed, including legal description, for all affected properties					<input checked="" type="checkbox"/>
Certified survey map or relevant portion of the recorded plat map (if referenced in the legal description) for all affected properties					<input checked="" type="checkbox"/>
County Parcel ID number, if used for county, for all affected properties					<input checked="" type="checkbox"/>
Location Map which outlines all properties within contaminated site boundaries on USGS topographic map or plat map in sufficient detail to permit the parcels to be located easily (8.5x14" if paper copy). If groundwater standards are exceeded, the map must also include the location of all municipal and potable wells within 1200' of the site.					<input checked="" type="checkbox"/>
Detailed Site Map(s) for all affected properties , showing buildings, roads, property boundaries, contaminant sources, utility lines, monitoring wells and potable wells. (8.5x14", if paper copy) This map shall also show the location of all contaminated public streets, highway and railroad rights-of-way in relation to the source property and in relation to the boundaries of groundwater contamination exceeding ch. NR 140 ESs and soil contamination exceeding ch. NR 720 generic or SSRCLs.					<input checked="" type="checkbox"/>
Tables of Latest Groundwater Analytical Results (no shading or cross-hatching)					<input checked="" type="checkbox"/>
Tables of Latest Soil Analytical Results (no shading or cross-hatching)					<input checked="" type="checkbox"/>
Isoconcentration map(s), if required for site investigation (SI) (8.5x14" if paper copy). The isoconcentration map should have flow direction and extent of groundwater contamination defined. If not available, include the latest extent of contaminant plume map.					<input checked="" type="checkbox"/>
GW: Table of water level elevations, with sampling dates, and free product noted if present					<input checked="" type="checkbox"/>
GW: Latest groundwater flow direction/monitoring well location map (should be 2 maps if maximum variation in flow direction is greater than 20 degrees)					<input checked="" type="checkbox"/>
SOIL: Latest horizontal extent of contamination exceeding generic or SSRCLs, with one contour					<input checked="" type="checkbox"/>
Geologic cross-sections, if required for SI. (8.5x14" if paper copy)					<input checked="" type="checkbox"/>
RP certified statement that legal descriptions are complete and accurate					<input checked="" type="checkbox"/>
Copies of off-source notification letters (if applicable)					<input checked="" type="checkbox"/>
Letter informing ROW owner of residual contamination (if applicable)(public, highway or railroad ROW)					<input checked="" type="checkbox"/>
Copy of (soil or land use) deed restriction(s) or deed notice if any required as a condition of closure					<input checked="" type="checkbox"/>

RE: **Final Closure**

Commerce # 54629-9998-03 WDNR BRRS # 03-06-194934
Tackle Shack (Former), 3 S Shore Dr., Fountain City

Dear Ms. Ebert:

The Wisconsin Department of Commerce (Commerce) has received all the items required as conditions for closure of the above-referenced site. This site is now listed as "closed" on the Commerce database and will be included on the Wisconsin Department of Natural Resources (WDNR) Geographic Information System (GIS) Registry of Closed Remediation Sites to address residual soil and groundwater contamination.

If future site conditions indicate that any remaining contamination poses a threat, the case may be reopened and further investigation or remediation may be required. If applicable, any original claim under the PECFA fund would also reopen and you may apply for assistance to the extent of remaining eligibility. If residual contamination is encountered in the future, it must be managed following all applicable state and federal regulations and standards.

Thank you for your efforts to protect Wisconsin's environment. If you have any questions, please contact me in writing at the letterhead address or by telephone at (608) 261-5404.

Sincerely,

A handwritten signature in black ink, appearing to read 'G. M. Larson'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.

To All To Whom These Presents Shall Come, Greeting:

WHEREAS Buffalo County
assignee of _____
has deposited in the office of the County Clerk of the County of Buffalo in the State of Wisconsin,
a Tax _____ Certificate of _____
the then County Treasurer of said County, whereby it appears, as the fact is, that the following described piece or parcel of land lying
and being situated in the County of Buffalo State of Wisconsin, to-wit:

A parcel of land lying and being in the Plat of Waumandee, in the City
of Fountain City, Buffalo County, Wisconsin, described as follows:

Lot Number Seventy Nine (79), Block Number Twelve (12); That part
of Lot Number Eighty (80) Block Number Twelve (12), described as follows;
to-wit:- Commencing at the Southeast corner of Lot Number Seventy Nine
(79), Block Number Twelve (12); thence in a Southeasterly direction along
the Southwesterly line of Front Street (now North Shore Drive), a distance
of 14.9 feet; thence in a Southwesterly direction a distance of 40 feet
6 inches, which point is 82 feet 3 inches from the Northerly line of Lot
Number Seventy Nine (79) when measured parallel to the Southwesterly line
of Front Street (now North Shore Drive); thence is a Southwesterly
direction to a point on the Northeasterly right of way line of the Chicago,
Burlington and Quincy railroad (now Burlington Northern Railroad) which
point is 28.1 feet Southeasterly of the Southwest corner of Lot Number
Seventy nine (79), Block Number Twelve (12); thence in a Northwesterly
direction along the Northeasterly right of way line of the Chicago,
Burlington and Quincy Railroad (now Burlington Northern Railroad), a
distance of 28.1 feet to the Southwest corner of Lot Number Seventy Nine
(79), Block Twelve (12); thence in a Northeasterly direction along the
Southerly line of Lot Number Seventy Nine (79), Block Number Twelve (12),
a distance of 120 feet, more or less, to the point of beginning.

Drafted by Sandra K. Ebert, County Clerk.

W as _____, for the non-payment of taxes, sold by the said Treasurer of said County, at public auction at the County Treasurer's office, in
the County of Buffalo on the 23rd day of September in the
year of our Lord, one thousand nine hundred and ninety-seven to the said Buffalo County

for the sum of three thousand one hundred thirty-eight Dollars and 65 Cents
in the whole, which sum was the amount of taxes assessed and due, and unpaid on said _____ tract of land, together
with the costs and charges of such sale, due therewith at the time of making such sale, the whole of which sum of money has been paid by the
aforesaid purchaser.

AND WHEREAS it further appears, as the fact is, that the owner or claimant of said lands has not redeemed from said sale
the lands which were sold as aforesaid, and said lands are now unredeemed from such sale, whereby said described lands have become forfeited
and the said purchaser their heirs or assigns, entitled to a conveyance thereof:

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS, that the County of Buffalo
in said State, and the State of Wisconsin, in consideration of the said money aforesaid, and the premises, and in conformity to law, have given
and hereby do give, grant and convey the said tract of land above described, together with the hereditaments
and appurtenances, to the said Buffalo County, and to
their heirs and assigns, to their sole use and benefit FOREVER.

IN TESTIMONY WHEREOF, I, Sandra K. Ebert, the County Clerk of the County of
Buffalo, have executed this Deed, pursuant to and in virtue of
the authority in me vested by the statutes of the State of Wisconsin, and for and on behalf of
said State, and the County of Buffalo aforesaid, and have
hereunto subscribed my name officially, and affixed the seal of the said County, at
Alma in said County of Buffalo
this 23rd day of January in the year of our Lord,
one thousand nine hundred and ninety-eight

Re: Residual Contamination

Groundwater contamination that appears to have originated on the property located at 3 S. Shore Drive has migrated onto your property, 19 S. Shore Drive. Benzene contamination above the state groundwater enforcement standards found in chapter NR 140, Wisconsin Administrative Code is present in the groundwater at well MW-6, which is approximately 67 feet north of the northwest corner of your building; and above preventive action limits at MW-3, approximately 30 feet northwest of the northwest corner of your building. Well MW-9, which is on your property, has no detects of benzene contamination.

The environmental consultants who investigated this contamination informed me that this groundwater contaminant plume is stable or receding and will naturally degrade over time. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapter NR 726 and Comm 46, Wisconsin Administrative Code, and I will be requesting that the Department of Commerce accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the Department will not be requiring any further investigation or cleanup action to be taken, other than the reliance on natural attenuation.

Since the source of the groundwater contamination is not on your property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of Section 292.13, Wisconsin Statutes, including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of Section 292.13, Wisconsin Statutes, you may call (800) 367-6076 for calls originating in Wisconsin, or (608) 264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the Department of Natural Resources' publication #RR-589, *Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination*.

The Department of Commerce will not review the closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the Department to provide any technical information you may have that indicates closure should not be granted for this site. If you would like to submit any information to the Department Commerce relevant to this closure request, you should mail that information to:

Fountain City Ford
August 15, 2002
Page 2 of 2

Ms. Gena Larson
Wisconsin Department of Commerce
P.O. Box 8044
Madison, WI 53708-8044

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds chapter NR 140 groundwater enforcement standards will be listed on the Department of Natural Resources' Geographic Information System (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where groundwater contamination above chapter NR 140 enforcement standards was found at the time the case was closed. This GIS Registry will be available to the general public on the Department of Natural Resources' Internet website. Please review the enclosed legal description of your property, and notify me within the next 30 days if the legal description is incorrect.

Should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards may be necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a well on your property in the future will first need to call Diggers Hotline (1-800-242-8511) if your property is located outside the service area of a municipally-owned water system, or contact the Department of Natural Resources' Drinking Water Program if your property is located within the designated service area of a municipally-owned water system to determine if there is a need for special well construction standards.

When the Department makes a decision on my closure request, it will be documented in a letter. If the Department grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above, or by accessing the DNR GIS Registry of Closed Remediation Sites on the Internet at www.dnr.state.wi.us/org/at/et/geo/gwur. A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information, you may contact me at 407 S. Second Street, Alma, WI 54610-0058, (telephone no. [608] 685-6206), or you may contact Gena Larson at the address shown above (telephone no. [608] 261-5404).

Sincerely,

Buffalo County (Former Tackle Shack Station)

Re: Residual Contamination

Dear Mr. Fort:

Groundwater contamination has originated on your property located at 3 S. Shore Drive and has migrated onto 19 S. Shore Drive (Fountain City Ford). Benzene contamination above the state groundwater enforcement standards found in chapter NR 140, Wisconsin Administrative Code is present in the groundwater at well MW-6, which is approximately 67 feet north of the northwest corner of Fountain City Ford's building, and above preventative action limits at MW-3, approximately 30 feet northwest of the northwest corner the same building. Well MW-9, which is on the Fountain City Ford property, has no detects of benzene contamination.

The environmental consultants who investigated this contamination informed me that this groundwater contaminant plume is stable or receding and will naturally degrade over time. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapter NR 726 and Comm 46, Wisconsin Administrative Code, and I will be requesting that the Department of Commerce accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the Department will not be requiring any further investigation or cleanup action to be taken, other than the reliance on natural attenuation.

Because the groundwater contamination occurred before you acquired the property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this groundwater contamination, as long as you and any subsequent owners comply with the requirements of section 292.13, Wisconsin Statutes, including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of section 292.13, Wisconsin Statutes, you may call 1-800-367-6076 for calls originating in Wisconsin, or (608) 264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the Department of Natural Resources' publication #RR-589, Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination.

The Department of Commerce will not review the closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the Department to provide any technical information that you may have that indicates closure should not be granted for this site. If you would like to submit any information to the Department Commerce that is relevant to this closure request, you should mail that information to:

Mr. Robert H. Fort
October 18, 2002
Page 2 of 2

Mr. David Swimm
Wisconsin Department of Commerce
P.O. Box 8044
Madison, WI 53708-8044

If this case is closed, all properties within the site boundaries where groundwater contamination exceeds chapter NR 140 groundwater enforcement standards will be listed on the Department of Natural Resources' geographic information system (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where groundwater contamination above chapter NR 140 enforcement standards was found at the time the case was closed. This GIS Registry will be available to the general public on the Department of Natural Resources' Internet website. Please review the enclosed legal description of your property and notify me within the next 30 days if the legal description is incorrect.

Should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards may be necessary to protect the well from the residual groundwater contamination. Any well driller who proposes to construct a well on your property in the future will first need to call Diggers Hotline (1-800-242-8511) if your property is located outside the service area of a municipally-owned water system, or contact the Drinking Water program within the Department of Natural Resources if your property is located within the designated service area of a municipally-owned water system, to determine if there is a need for special well construction standards.

Once the Department makes a decision on my closure request, it will be documented in a letter. If the Department grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above, or by accessing the DNR GIS Registry of Closed Remediation Sites on the internet at www.dnr.state.wi.us/org/at/et/geo/gwur. A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information, you may contact me at 407 S. Second Street, Alma, WI 54610-0058, (telephone no. 608-685-6206), or you may contact Shawn Wenzel at the address shown above (telephone no. 608-261-5401).

Re: Residual Contamination

Dear Ms. LaDuke:

Soil contamination that appears to have originated on the property located at 3 S. Shore Drive has migrated onto your property. Benzene, toluene, ethylbenzene, and xylene contamination above the state soil cleanup standards found in chapter NR 720, Wisconsin Administrative Code are present in the right-of-way (ROW) of Liberty Street (just north of the former Tackle Shack building).

The environmental consultants who investigated this contamination informed me that this soil contaminant plume is stable. I believe that allowing natural attenuation to complete the cleanup at this site will meet the requirements for case closure that are found in chapter NR 746 and COMM 46, Wisconsin Administrative Code and will be requesting that the Department of Commerce accept natural attenuation as the final remedy for this site and grant case closure. Closure means that the Department will not be requiring any further investigation or cleanup action to be taken, other than the reliance on natural attenuation.

Because the source of the soil contamination is not on your property, neither you nor any subsequent owner of your property will be held responsible for investigation or cleanup of this contamination, as long as you and any subsequent owners comply with the requirements of Section 292.13, Wisconsin Statutes, including allowing access to your property for environmental investigation or cleanup if access is required. For further information on the requirements of Section 292.13, Wisconsin Statutes, you may call (800) 367-6076 for calls originating in Wisconsin, or (608) 264-6020 if you are calling from out of state or within the Madison area, to obtain a copy of the Department of Natural Resources' publication #RR-589, *Fact Sheet 10: Guidance for Dealing with Properties Affected by Off-Site Contamination*.

The Department of Commerce will not review the closure request for at least 30 days after the date of this letter. As an affected property owner, you have a right to contact the Department to provide any technical information you may have that indicates closure should not be granted for this site. If you would like to submit any information to the Department of Commerce relevant to this closure request, you should mail that information to:

If this case is closed, all properties within the site boundaries where soil contamination exceeds chapter NR 720 soil cleanup standards will be listed on the Department of Natural Resources' Geographic Information System (GIS) Registry of Closed Remediation Sites. The information on the GIS Registry includes maps showing the location of properties in Wisconsin where soil contamination above chapter NR 720 soil cleanup standards was found at the time the case was closed. This GIS Registry will be available to the general public on the Department of Natural Resources' Internet website. Please review the enclosed location map of your property and notify me within the next 30 days if the legal description is incorrect.

Should you or any subsequent property owner wish to construct or reconstruct a well on your property, special well construction standards may be necessary to protect the well from the residual ground water contamination. Any well driller who proposes to construct a well on your property in the future will first need to call Diggers Hotline (1-800-242-8511) if your property is located outside the service area of a municipally-owned water system, or contact the Department of Natural Resources' Drinking Water Program if your property is located within the designated service area of a municipally-owned water system to determine if there is a need for special well construction standards.

When the Department makes a decision on my closure request, it will be documented in a letter. If the Department grants closure, you may obtain a copy of this letter by requesting a copy from me, by writing to the agency address given above, or by accessing the DNR GIS Registry of Closed Remediation Sites on the Internet at www.dnr.state.wi.us/org/at/et/geo/gwur. A copy of the closure letter is included as part of the site file on the GIS Registry of Closed Remediation Sites.

If you need more information, you may contact me at 407 S. Second Street, Alma, WI 54610-0058, (telephone no. [608] 685-6206), or you may contact Gena Larson at the address shown above (telephone no. [608] 261-5404).

Sincerely,

Buffalo County (Former Tackle Shack Station)

COUNTY OF BUFFALO)

Section 1. Robert H. Fort is the owner of the above-described property.

Section 2. One or more petroleum discharges have occurred at this property.

Section 3. The owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied and improved subject to the following limitations and/or restrictions:

A NR 141, Wisconsin Administrative Code, monitoring well, identified as MW-2, is present on the property and is located approximately 50 feet west of the Tackle Shack building. [see figure]
If this monitoring well is accessible in the future, it shall be properly and permanently abandoned in accordance with all applicable statutes and rules.

Any person who is or becomes owner of the property described above may request that the Wisconsin Department of Commerce, or its successor, issue a determination that the restrictions set forth in this covenant are no longer required. That property owner shall provide any and all necessary information to the Department in order for the Department to be able to make a determination. Upon receipt of such a request, the Department shall determine whether or not the restrictions contained herein can be extinguished. Conditions under which a restriction may be extinguished will be determined in accordance with the site specific standards, rules and laws for this property. If the Department determines

214460

that the restrictions can be extinguished, an affidavit, with a copy of the Department's written determination, may be recorded to give notice that this restriction, or portions of this restriction are no longer binding. Any restriction placed upon this property shall not be extinguished without the Department's written determination.

IN WITNESS WHEREOF, the owner of the property has executed this document, this 31st day of March, 2003.

[When appropriate use the following clause]:

By signing this document, [he/she] acknowledges that [he/she] is duly authorized to sign this document on behalf of Buffalo County.
